Maribyrnong Park Football Club —

"A good sports club"

We are extremely proud to have been named the Good Sports Regional Club of the Year in 2013. The award celebrates the club for promoting the values of the Australian Drug Foundation's Good Sports program.

The Good Sports program works with clubs to help them provide safe and healthy environments through the responsible management of alcohol. Good Sports works to reduce alcohol-related harm both within community sporting clubs and the wider community. More than 6,000 clubs are involved with the program around Australia and we are one of six Victorian award winners.

The Australian Drug Foundation's Victorian State Good Sports Manager, Rod Glenn-Smith, said the Good Sports Awards recognise the sports clubs around Australia who are providing safe and healthy places for families to enjoy sport.

"Since winning the Good Sports Regional Club of the Year in 2013, the Maribyrnong Park Football Club has continued to show the wider community that the club places the utmost importance on the health and wellbeing of their players, members and spectators"
- Club President Doug Stevens

We believe being part of the Good Sports program supports our vision to be a responsible member of the local community, and as a member, we would love you to be a part of this vision.
