Maribyrnong Park Football Club wins Good Sports Regional Club of the Year

We are extremely proud to have been named 2013 Good Sports Regional Club of the Year for Metro Melbourne's West. The award celebrates the club for promoting the values of the Australian Drug Foundation's Good Sports program.

The Good Sports program works with clubs to help them provide safe and healthy environments through the responsible management of alcohol. Good Sports works to reduce alcohol-related harm both within community sporting clubs and the wider community. More than 6,000 clubs are involved with the program around Australia and we are one of six Victorian award winners.

The Australian Drug Foundation's Victorian State Good Sports Manager, Rod Glenn-Smith, said the Good Sports Awards recognise the sports clubs around Australia who are providing safe and healthy places for families to enjoy sport.

"As the Good Sports Regional Club of the Year for Metro Melbourne's West, the Maribyrnong Park Football Club is showing the wider community that the club places the utmost importance on the health and wellbeing of their players, members and spectators".

We believe this award is confirmation that our vision to be a responsible member of the local community is on track, and as a sponsor, we would love you to be a part of this vision.
